

## **ADVANCE DATA EXCHANGE FOR MAWB and HAWB** **EX INDIA**

Dear Customer,

As you all aware that regulatory authorities like customs and other Government bodies in various countries now need advance MAWB & HAWB data to be transmitted electronically to their respective systems for all international export shipments originating from India. In the interim, IATA has also taken the initiative to implement e-AWB process across all stations in India.

Therefore in order to be compliant with various regulatory authorities Jet Airways has appointed M/s. Kale Logistics who have an electronic data exchange platform 'UPLIFT' through which MAWB and HAWB data must be transmitted electronically to Jet Airways a minimum 6 hours before departure of flight from India.

Non-compliance of MAWB & HAWB data transmission will entail penal action from regulatory and customs authorities at the destination.

Customers already having their own data transmission system or arrangements need to sign the 'ADVANCE ELECTRONIC SUBMISSION OF CONSIGNMENT INFORMATION (INDIA)' agreement with Jet Airways for electronic data exchange. In such instances, FWB/FHL messages need to be transmitted electronically from customers system to the Jet Airways Cargo system via SITA addressed to BOMX19W.

Effective 1<sup>st</sup> of February 2019 Jet Airways will be implementing the following charges for data transmission and data capture for all international export shipments originating from India under Jet Airways Air waybill (Prefix 589)

1. If customer transmits data electronically to Jet Airways then the applicable charge will be INR 170 plus GST for each MAWB and HAWB
2. If complete data capture has to be done by Jet Airways manually, then the applicable charge will be INR 700 plus GST for each MAWB and HAWB.

The total charges should be added under the Due Carrier column and breakdown should be shown under the following codes:

- ↗ 'AWC' for MAWB (data transmitted electronically by the agent then @ INR 170/- per MAWB)
- ↗ 'AWC' for MAWB (MAWB data created manually by Jet Airways or it's GHA @ INR 700/- per MAWB)
- ↗ 'CGC' for HAWB data transmitted electronically by the agent (@ INR 170/- per MAWB)
- ↗ 'CCC' for HAWB (HAWB data entered manually by Jet Airways or its GHA @ INR 700/- per HAWB)

All other, due carrier other charges continue unaffected.

Current applicable electronic data exchange/entry charge will be valid up to 31<sup>st</sup>. January, 2019.

Customers already registered and using "UPLIFT" don't have to take any action, however for customers who are not registered with M/s. Kale Consultants, need to get registrations done with M/s. Kale Logistics by sending an email to [register.uplift@kalelogistics.in](mailto:register.uplift@kalelogistics.in)

For any clarifications, Kale Logistics may be contacted on telephone numbers +91 22 4113 4113  
Ext: 4164 or +91 22 4113 4164

Testing of data exchange between the UPLIFT system and Jet Airways Cargo system will be commencing effective 1<sup>st</sup> of December 2018. We request your co-operation and participation during this period by transmitting the MAWB and HAWB data electronically using the UPLIFT platform.
